

Drive Analyzer®

DA Drive Analyzer License Purchase and App Installation
Guide for Windows PCs

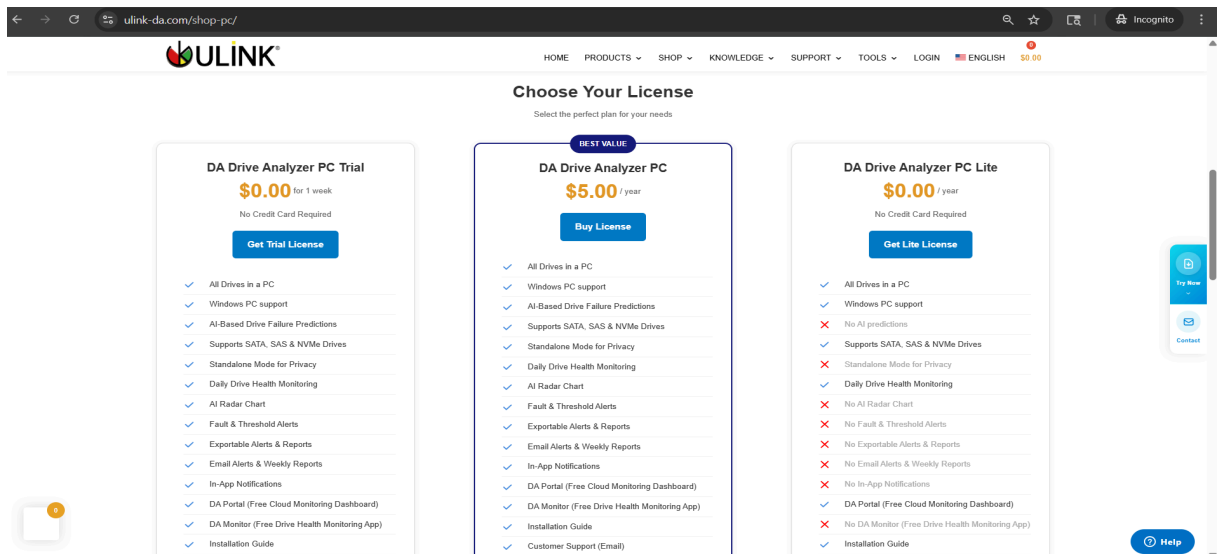

The purpose of this document is to guide users through the DA Drive Analyzer license purchase and app installation process. The user needs to go through the license purchase process before installing the DA Drive Analyzer app. You can accomplish this by following the steps below.

1. License Purchase

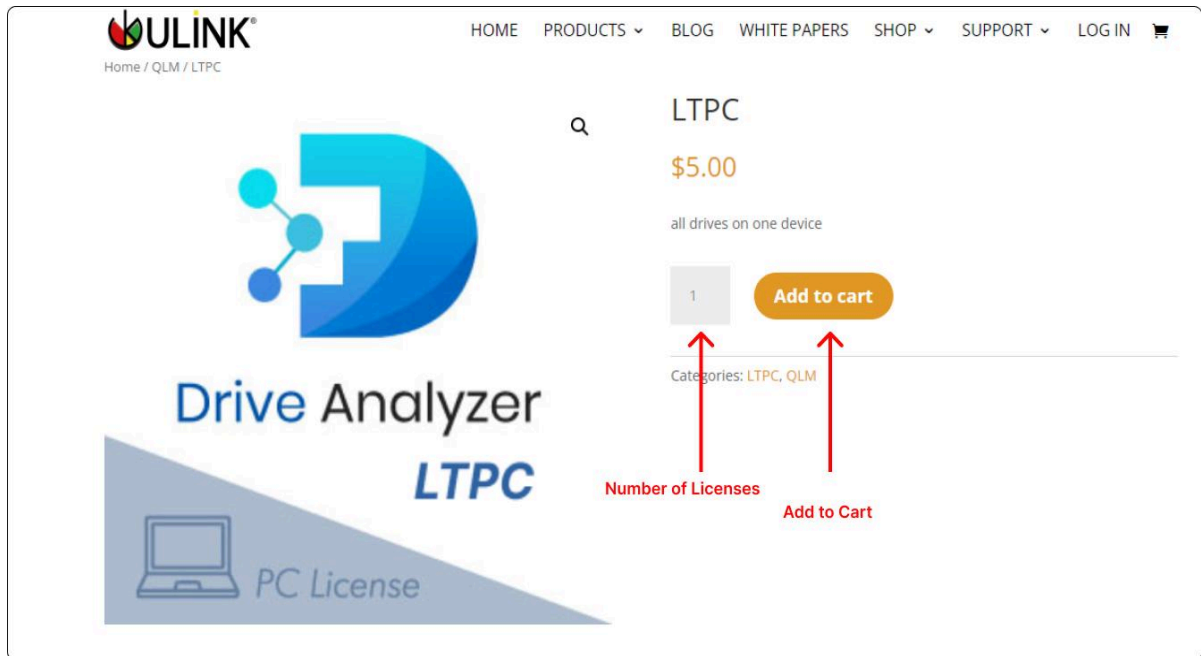

- a. To purchase a DA Drive Analyzer License, please visit DA Drive Analyzer's shop page at <https://ulink-da.com/shop-pc/>

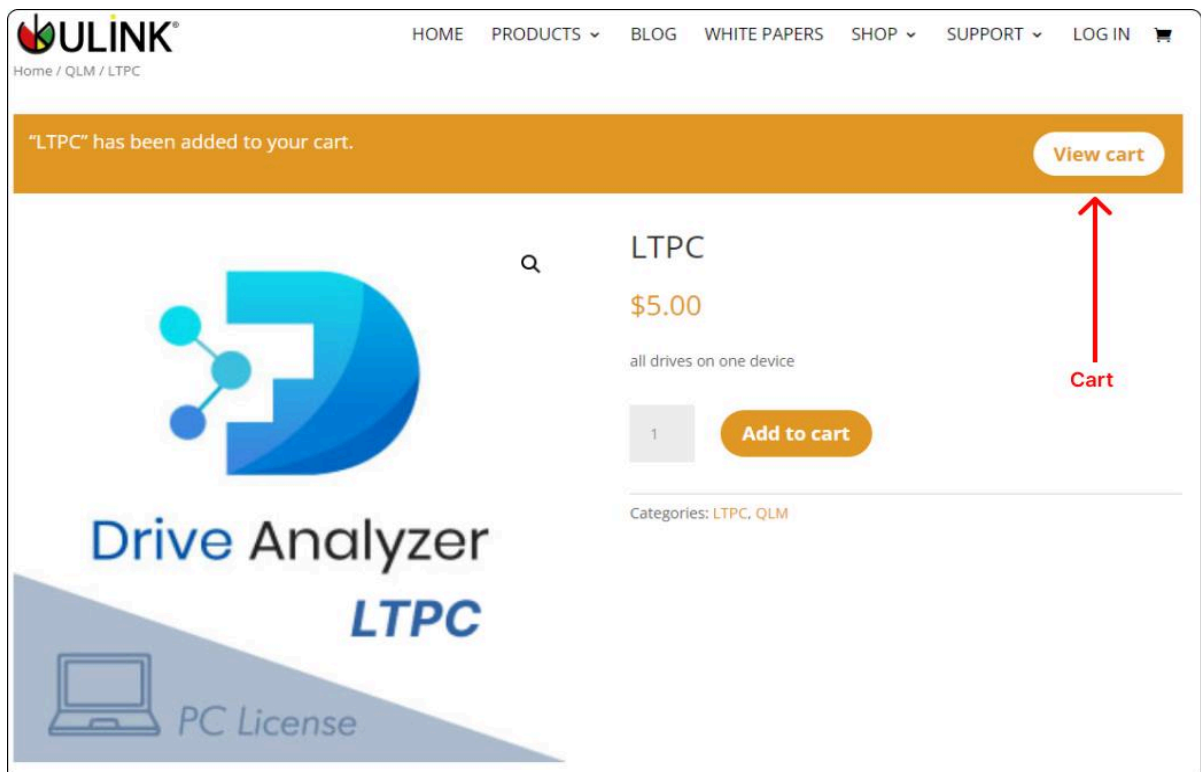

- b. We currently have 3 licenses for DA Drive Analyzer under the “PC Licenses” section. Please check out the features specific to each license under the “Choose Your License ” section and then click on the license you wish to obtain.

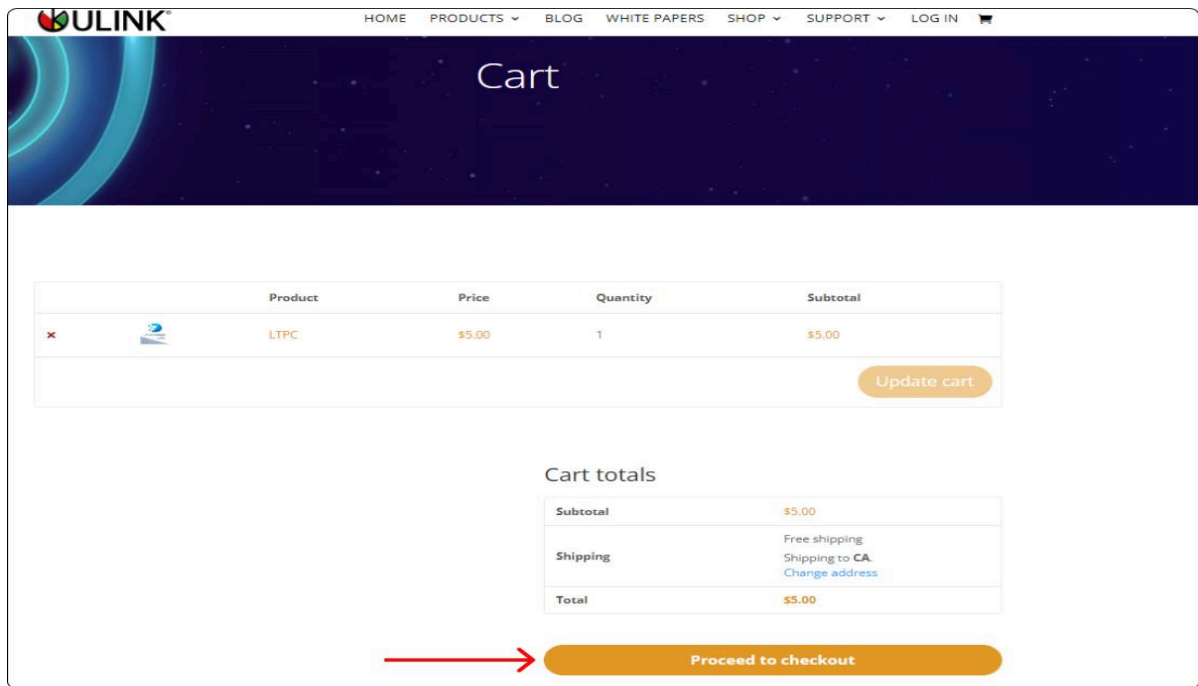

- c. After clicking on a specific license, you will be guided to a product page where you can choose the number of licenses you wish to proceed with. After selecting the number of licenses you would like, click on the “Add to Cart” button.

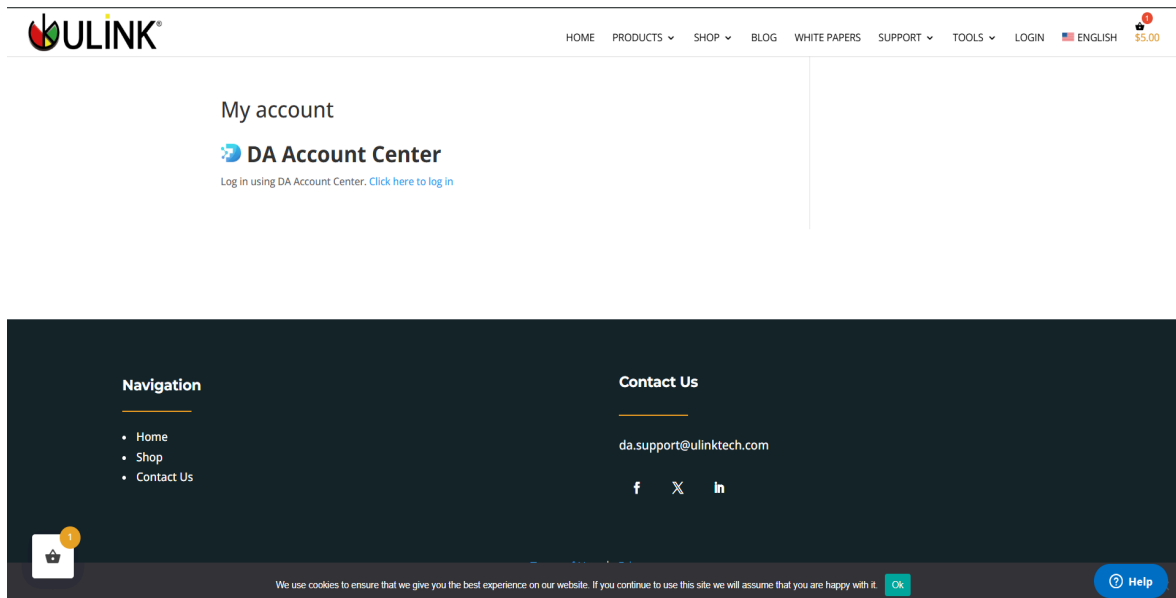

- d. After adding the licenses to the cart, proceed to check out the cart by clicking on the “View Cart” button or “Cart” icon in the top right corner. This will lead you to the cart page, where you can click on the “proceed to checkout” button to purchase the license.

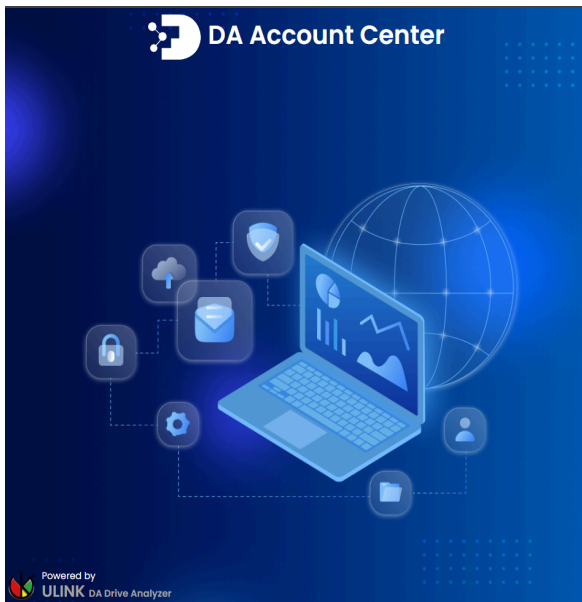

- e. You will be redirected to the DA Account Center login page, click on the “Click here to log in” to log in or to create a new account.

- f. Submit the log in credentials to login

- h. Once an order is placed, you will be directed to the order page where you can find your order details along with a downloadable app installation (.exe) file and license key/s. Upon placement of order, you will also receive two emails - an order received email and an order confirmation email. The order confirmation email contains your order details along with a downloadable app installation file and license key/s. You can download the app installation file from the order page or by clicking on the installation file link in the email.

2. DA Drive Analyzer Installation

- a. Upon downloading the app installation file (.exe), double-click on the saved file to start the installation process. The installation process will start. An installation window will

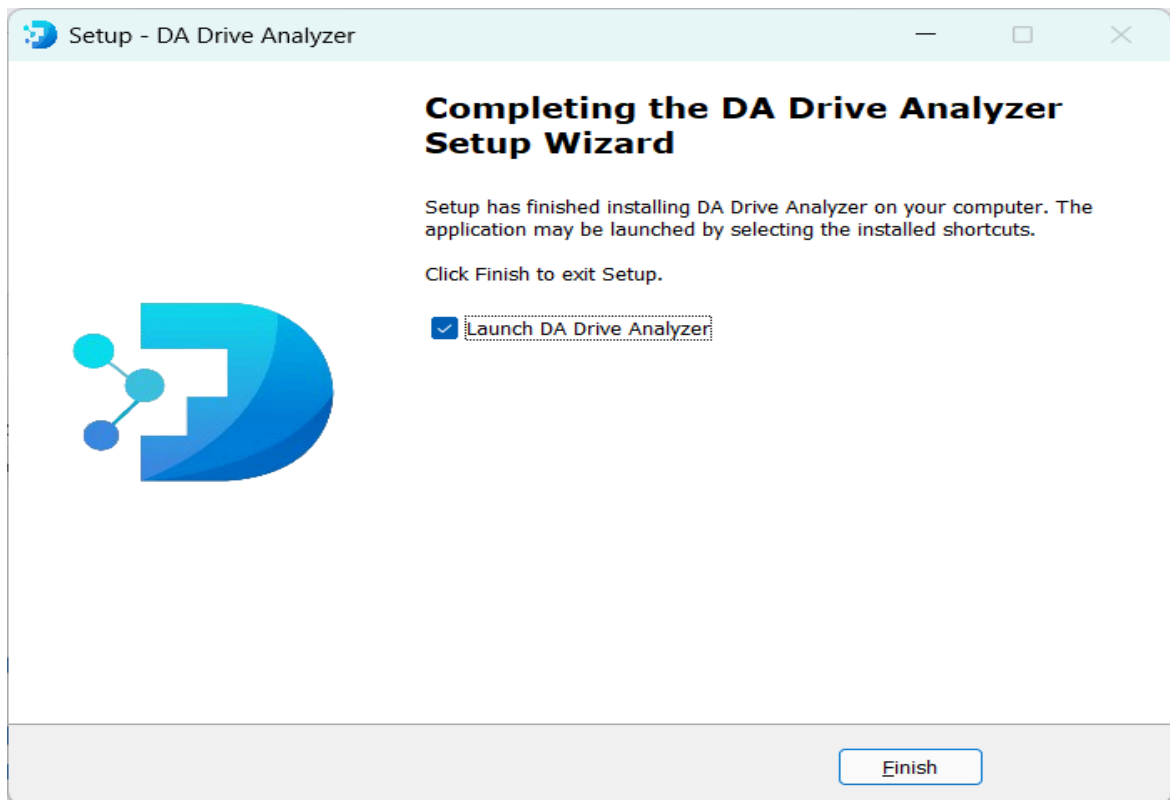

appear with an End User License Agreement. Check the “I accept the agreement” box and click on “Next” to continue with the installation.

- b. Check the “ Create a desktop shortcut” checkbox if the application shortcut is needed and click on “Next” to proceed with the installation. This will initiate the installation.

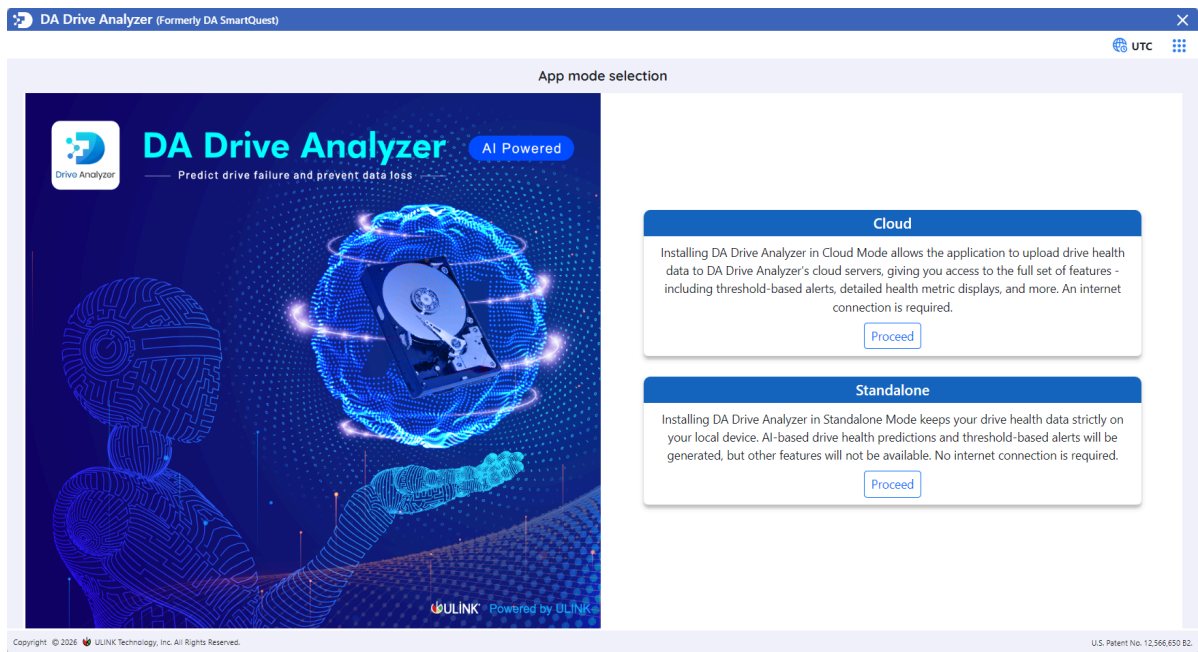

- c. Click on the "Finish" button. This will complete the installation. If "Launch DA Drive Analyzer" is checked, it will start the DA Drive Analyzer app.

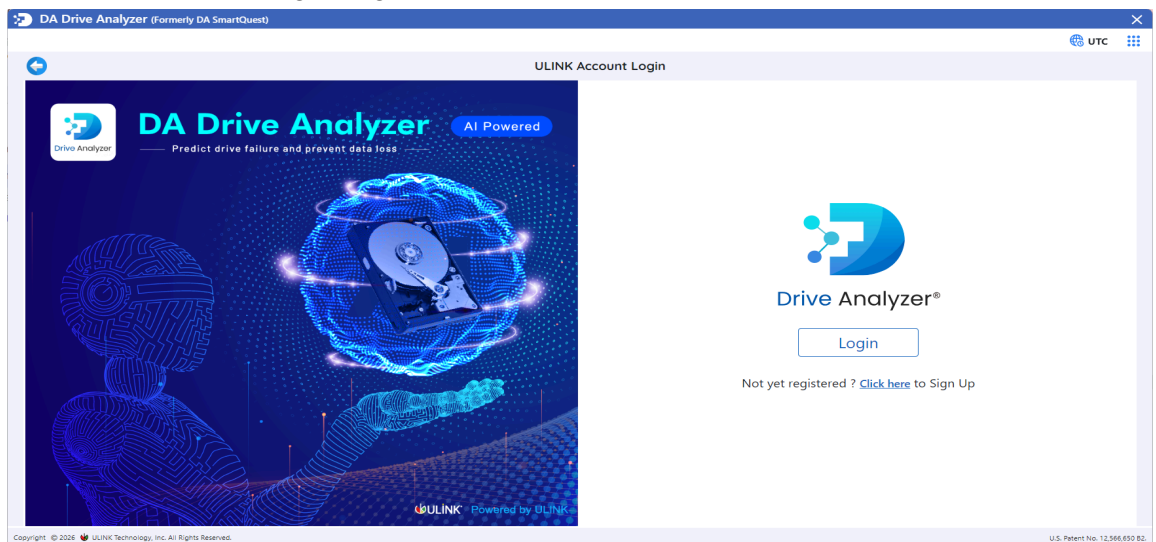

3. Application Mode Selection and License Activation

- a. Once the DA Drive Analyzer Window's app is launched, you will see a screen for Application Mode Selection, where the two modes of the application are presented.
 - i. Cloud: Installing DA Drive Analyzer app in Cloud Mode allows the application to upload drive health data to DA Drive Analyzer's cloud servers, giving you access to the full set of features -including threshold-based alerts, detailed health metric displays, and more. An internet connection is required. If no internet connection is available, the application will default to Standalone Mode.
 - ii. Standalone: Installing DA Drive Analyzer in Standalone Mode keeps your drive health data strictly on your local device. AI-based drive health predictions will be generated, but other features will not be available. No internet connection is required.

4. Option 1: Cloud Mode Selection and License Activation

- a. Click on “Proceed” button on the card for Cloud mode, you will be redirected to the ULINK Account Login page.

- b. Click on “Login” if you already have an ULINK account otherwise click on “Sign Up” and follow the process to create a new account. Once you click on the “Login” button, you will be redirected to the sign-in page. Enter the required information and click on “Sign In”

Powered by **ULINK** DA Drive Analyzer

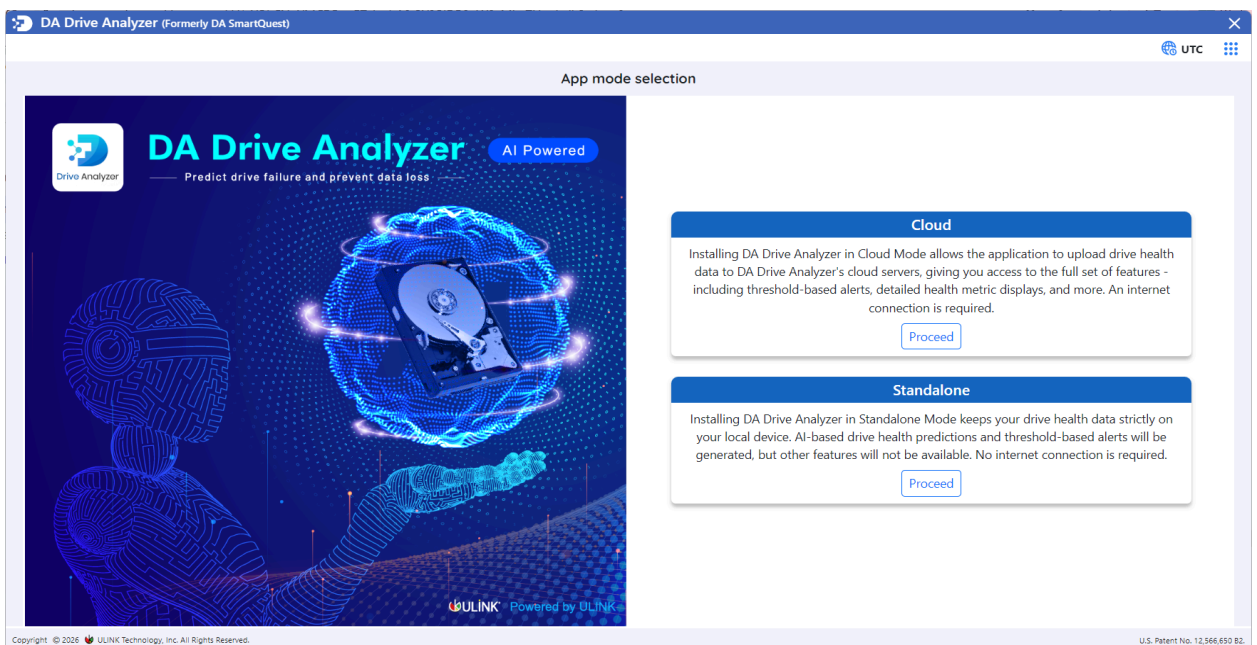

- c. You will be directed to the “Activate License Key” page, fill in the required information and click on “Activate License”. If you do not have a license key, please proceed to [“https://ulink-da.com/shop/”](https://ulink-da.com/shop/) to purchase or obtain a license.

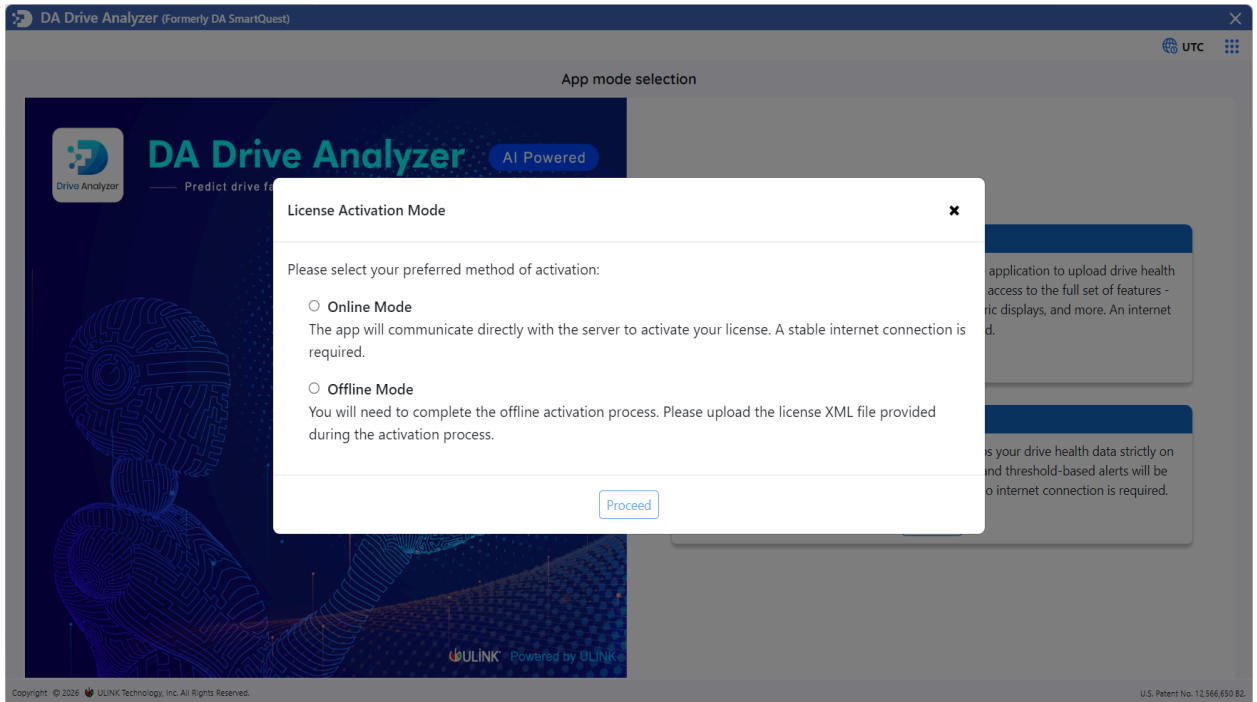

- d. Upon successful activation, your DA Drive Analyzer Cloud Mode is set. Your drive health predictions generated via an online algorithm, other alerts, and drive health metrics will be available within 24-48 hours after your drive health data has been uploaded and processed. You can access these additional features via DA Portal or DA Monitor. For these features to work smoothly, please ensure that your internet connection is on, and your computer is not in sleep mode.

5. Option 2: Standalone Mode Selection and License Activation

- a. Click on the “Proceed” button on the card for Standalone mode.

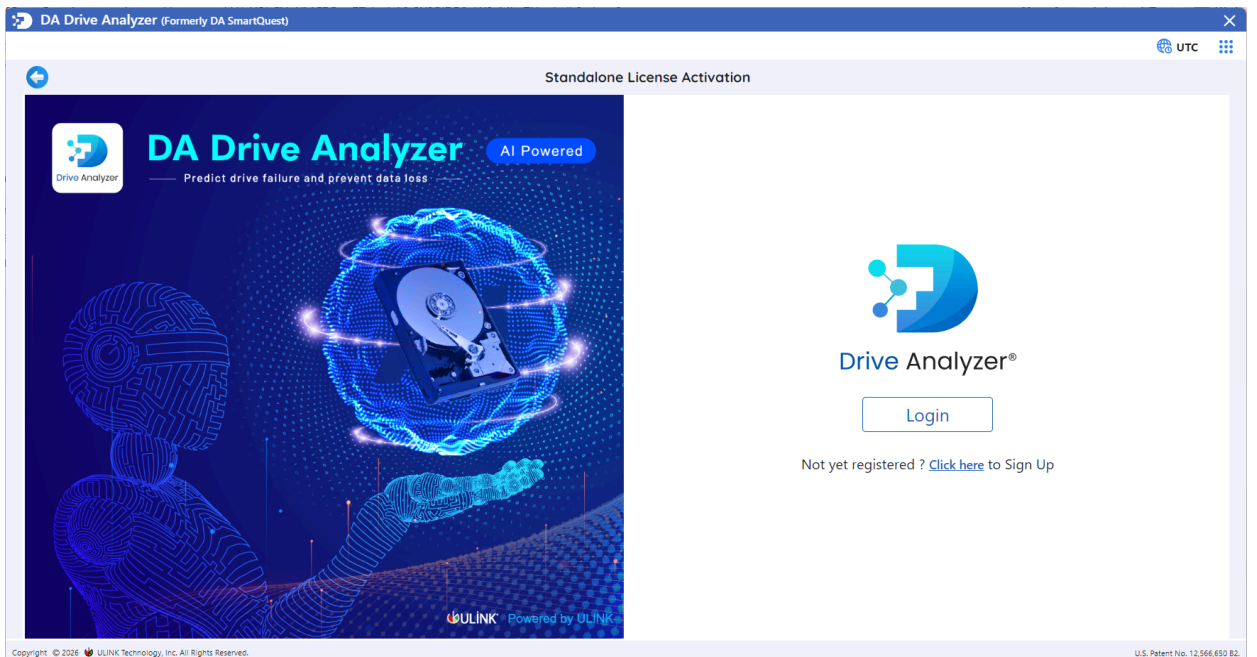

- b. You will be prompted to select your preferred method of activation. Choose one of the following options:
- Online Mode: In Online Mode, the application will communicate directly with the server to activate your license. This requires a stable internet connection.
 - In Offline Mode, you will need to manually activate your license. During the activation process, you will receive a license XML file, which must be uploaded for activation.

c. **License Activation Using Online Mode**

- Select Online Mode and click 'Proceed', you will be redirected to the ULINK Account Login page.

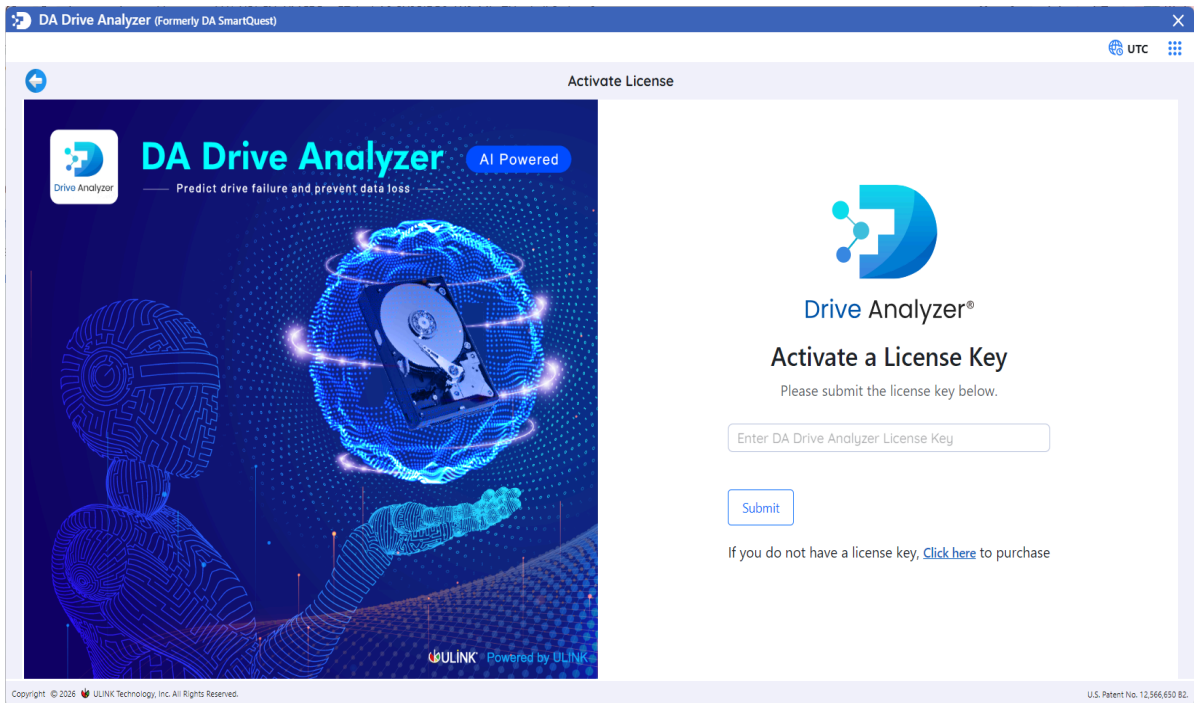

- ii. Click on “Login” if you already have an ULINK account otherwise click on “Sign Up” and follow the process to create a new account. Once you click on the “Login” button, you will be redirected to the sign-in page. Enter the required information and click on “Sign In”

The screenshot shows a web browser window titled "DA Account Center - Sign In". The page features a blue header with the "DA Account Center" logo and name. Below the header, the main heading is "Sign In to DA Account", followed by a link "Not registered yet? Sign Up". There are two input fields: "Username or Email Address" and "Password". A blue "Sign in" button is highlighted with a glow effect. Below the button are two links: "Forgot Password" and "Haven't received Activation e-mail?". At the bottom, there is a logo for "ULINK DA Drive Analyzer" with the text "Powered by ULINK DA Drive Analyzer".

- iii. You will be directed to the “Activate License Key” page, fill in the required information and click on “Activate License”. If you do not have a license key, please proceed to “<https://ulink-da.com/shop-pc/>” to purchase or obtain a license.

- iv. Upon successful activation, your DA Drive Analyzer Cloud Mode is set. Your drive health predictions generated via an online algorithm, other alerts, and drive health metrics will be available within 24-48 hours after your drive health data has been uploaded and processed. You can access these additional features via DA Portal or DA Monitor. For these features to work smoothly, please ensure that your internet connection is on, and your computer is not in sleep mode.
- d. **License Activation Using Offline Mode**
- i. You will be redirected to an “Offline License Activation” page. Follow the steps mentioned on the page to activate the license.

DA Drive Analyzer (Formerly DA SmartQuest) UTC

Standalone License Activation

To Activate the license offline, follow below steps.

- Scan the below QR code or visit our Offline License Management page.

- <https://alpha-account.ulinkda.com/home/activate-license?id=PF43MG01&host=AGS-246>
-  Log in or sign up on the Offline License Management page if you haven't already.
- Once on the page, Enter the License Key.
- Enter the Computer ID (if not pre-filled) as: **PF43MG01**
- Press the "Activate" button to proceed.
- Upon activation, the file "LicenseFile.xml" will be downloaded.
- Return to the application and use the "Upload License File" button to upload the downloaded file.

[Upload License File](#)

Copyright © 2026 ULINK Technology, Inc. All Rights Reserved. U.S. Patent No. 12,566,650 B2.

- e. Complete the license activation process by uploading the license .xml file to DA Drive Analyzer application. Your DA Drive Analyzer Standalone application should now be set and running.
